'Morgana' is a nuanced and artistic character portrait of a 50 year old conservative rural Australian housewife, who re-invents herself as a sex-positive, age-positive, pan-sexual feminist porn star, after living for two decades in a loveless marriage.

As female directors we were attracted to Morgana, because she is a fascinating, complex protagonist, who naturally challenges expectations of a middle-aged woman's character, sexuality and place in the world.

"After the divorce, society expected me to gracefully disappear and I thought, NO!"
